

Managing Sediments in the Watershed: Bringing Dredged Material and Watershed Managers Together

August 29-31, 2006, Portland, OR.

**Breakout Session 8D Report out:
Developing Regional Plans**

Personal Action

- Reach out to groups missing from regional sediment planning process (e.g., stormwater, watershed, NRCS)
- Think proactively

One size does not fit all

Next steps and actions

- Define playing field
 - Identify players
- Identify institutional home
- Identify goals and develop vision statement
- Develop a communication plan
- Data mining, identify data gaps
- Address policies that impede ability to accomplish goal
- Explore cross-boundary actions
